Treasury Rate Loan Program

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice.

SUMMARY: On December 22, 2000, the Rural Utilities Service (RUS), United States Department of Agriculture (USDA), published a Notice of Funding Availability (NOFA) in the **Federal Register** at 65 FR 80830 announcing the availability of \$500 million in direct Treasury rate electric loans for fiscal year (FY) 2001. RUS is distributing direct Treasury rate electric loans by offering those municipal rate electric loan applicants whose qualified

applications were pending at the time of the enactment of Pub. L. 106-387 the option of selecting the direct Treasury rate in lieu of the municipal rate for their loans. RUS is contacting applicants in the order of priority that their applications for municipal rate loans would otherwise have been funded using the loan processing priorities published in 7 CFR 1710.119.

The NOFA stated that RUS expected the \$500 million in available funding would be exhausted on or before July 1, 2001. As of June 15, 2001, RUS had approved \$473 million of Treasury rate electric loans. Borrowers have committed to switch an additional \$17 million of pending qualifying applications to the new program. It is anticipated that the remaining balance of funds available will come from the backlog of qualifying applications for loans from RUS under the Rural Electrification Act.

As of May 31, 2001, the backlog for municipal rate loans is approximately \$426 million. With this fact in mind, RUS fully anticipates to obligate loans for the full amount of the Treasury rate program by September 1, 2001, as stated in the NOFA. Therefore publication of regulations to allocate the small balance currently outstanding will not be necessary.

The Census 2000 Count Question Resolution Program

AGENCY: Bureau of the Census.

ACTION: Notice of Program.

SUMMARY: On January 22, 2001, the Bureau of the Census (Census Bureau) published in the **Federal Register** an initial notice relating to the Census 2000 Count Question Resolution (CQR) program (66 FR 6574). This notice provides information concerning the CQR program as well. The CQR program will address corrections for three types of challenges: (1) boundary corrections, (2) geocoding (geographic assignment) corrections, and (3) data processing corrections. (See the heading "Types of Corrections that will be Considered for the Census 2000 CQR Program" in the **SUPPLEMENTARY INFORMATION** section.) The CQR program is not a mechanism or process to challenge the March 6, 2001, decision of the Secretary of Commerce to release unadjusted numbers from Census 2000 for redistricting purposes; nor is it a mechanism or process to challenge or revise the numbers sent to the President on December 28, 2000, to be used to apportion the U.S. House of Representatives.

The CQR program procedures include researching challenges and, as appropriate, making corrections and issuing revised official population and housing unit counts, which also will be used for the Census Bureau's Postcensal Estimates program. Challenges will not be accepted to the overseas counts of persons in the military and federal civilian personnel stationed overseas and their dependents living with them.
